Liebert GXT2 Online Double Conversion UPS for High Availability Power

Maximum Protection for Mission Critical Network Applications

The Liebert GXT2 Online Double Conversion UPS is designed for providing power conditioning and emergency backup power backup for computers, network servers, routers, storage devices, radio and telecommunication systems, industrial controllers and other sensitive electronic equipment.

The Liebert GXT2 UPS provides ultra reliable, advanced power protection by providing power conditioning and zero transfer time UPS solutions for small and medium size computer and data centers and mission critical applications.

Providing Power Protection with New Electrical Sine Wave Output

Liebert provides the best power protection in the industry by providing a new electrical sine wave for your connected equipment. Its online, double conversion technology isolates your equipment from power issues that may be effecting your room, building or block. Protection from low voltage brownouts, blackouts and spikes are all encompassed in one solution!

Competitively priced, now you can have Liebert engineering and quality in this compact 2U high UPS chassis that is designed for 19” or 23” equipment racks or floor or shelf mounted installation. With the Liebert GXT2 UPS, you will always be ready for the next power issue.

Liebert Corporation has designed the GXT2 UPS systems to provide the highest level of reliability for your network and communication equipment infrastructure. To ensure this kind of performance, Liebert provides a two year factory replacement warranty for all of their GXT2 family of products. Units are 2U (3.75”) in height with the exception of the 6.0kVA UPS, which utilizes a 4U chassis and the 10.0kVA with its 6U chassis.

Liebert’s GXT2 UPS For High Availability Power

UPS Models with Input and Output Voltages

Model	UPS Rating	AC Input / Output	Model	UPS Rating	AC Input / Output
GXT2 120 VAC Single Phase			208 / 240 VAC Single Phase		
GXT2-500RT120	500VA / 350W	120	GXT2-2700RT208	2.7kVA / 1.8kW	208 or 240
GXT2-700RT120	700VA / 490W	120	120 / 208 / 240 VAC Single Phase		
GXT2-1000RT120	1.0kVA / 700W	120	GXT2-6000RT208	6.0kVA / 5.2KW	208 / 208-120
GXT2-1500RT120	1.5kVA / 1.0KW	120	GXT2-10000RT208	10.0kVA / 8.0kW	208 / 208-120
GXT2-2000RT120	2.0kVA / 1.4kW	120			
GXT2-3000RT120	3.0kVA / 2.1kW	120			

GXT2 UPS System Features

- Rack or Tower Mounting
- Zero Transfer Time to Battery
- Online Double Conversion UPS Protection
- Protection from Brownouts - Power Conditioning
- Wide Area Network RJ45 Communications Solutions
- Extended Runtime Solutions
- Internal Automatic Dynamic Bypass
- Wall Mount Enclosures Available
- 2U Chassis for Equipment Installation
- External Maintenance Bypass Switch - Optional
