Liebert Mini Computer Room – Air Conditioned Server Rack

Protecting Sensitive Equipment Outside the Data Center

With the Mini Computer Room air conditioned computer cabinet, Liebert has solved the problem of how to protect sensitive computer and networking equipment when it is placed outside the data center.

With the Liebert Mini Computer Room, you have a 42U integrated, air conditioned, sealed, computer cabinet with On-Line Double Conversion UPS protection in a 19” and 23” wide computer racking cabinet solution.

Now you can have Liebert engineering and quality in this completely self contained, secure server and computer rack cabinet. Ideal for remote server locations, dusty environments, shop floor installations or simply to provide needed space without expanding your existing server room.

The Liebert Mini Computer Room provides for an economical equipment protection solution. Simple installation is provided by its two AC input line cords and with its removable side panels, equipment installation is simple!

Options for expanding the cabinet is provided by pre-configured companion cabinets and additional ECM’s (environmental control modules) can be mounted on top of the cabinet if needed.

**Liebert’s Mini Computer Room
Air Conditioned Racking Solution**

Liebert Mini Computer Room Features

Air Conditioned, Temperature Controlled Cabinet
Online Double Conversion UPS Protection
Insulated, Gasket Sealed Cabinet and Doors
Equipment Security – Lockable Front and Rear Doors
Protection from Overhead Sprinklers
Wide Area Network Communications

Power Conditioning Protection
Backup Cooling Fan
