Liebert PowerSure PSI-XR UPS for Apple High Availability Power

Maximum Protection for Critical Applications

The Liebert PowerSure PSI-XR UPS is designed for providing power conditioning and emergency backup power and is an ideal solution for Apple Xserve servers, Raid drives and Power Mac G5 computers and other sensitive electronic equipment needing emergency backup power protection.

The Liebert PowerSure PSI-XR UPS provides ultra reliable 120VAC or 208VAC power with advanced power protection by providing power conditioning with automatic voltage regulation and emergency battery runtime solutions for Apple’s line of rack mounted servers, raid drives and networking products.

Providing Power Protection with Configurable Runtime Solutions

Liebert provides the best power protection in the industry by providing a UPS system that is easily deployed in computer racks or in a floor mounted mini-tower configuration. Optional battery cabinets extend runtimes for critical wide area network needs. Protection from low voltage brownouts, blackouts and spikes are all encompassed in one solution!

**Liebert’s PowerSure PSI UPS
for High Availability Power**

Competitively priced, now you can have Liebert engineering and quality in this compact 2U high UPS chassis. With the Liebert PowerSure PSI-XR UPS, you will always be safe from the next power issue.

Liebert Corporation has designed the PowerSure PSI-XR UPS system to provide the highest level of reliability for your computer and network equipment. To ensure this kind of performance, Liebert provides a two year factory replacement warranty for the PSI family of products.

Ratings	UPS Models	Receptacles	Input Plug	Chassis Design
1.0 kVA / 900W	PS1000RT3-120	NEMA 5-15	NEMA 5-15	Rack / Tower
