**Rittal Air Conditioned Computer Network Server Racks**

***Protecting Computers, Servers and Sensitive Electronic Equipment Outside the Data Center***

With the Rittal Air Conditioned Computer Server Enclosure system, you have a product designed specifically for cooling and protecting computers, servers, Cisco switches and other network communication devices when placed outside of the data center.

Providing protection for dirt, heat and humidity, these air conditioned computer server cabinets provide a “ready to be deployed” solution that is backed by Rittal, one of the leading manufacturers of computer racking products.

Enclosures are NEMA 12 rated and provide protection from dirt, dust and water and all cabinets are lockable.

With the Rittal air conditioned enclosure system, you have a 42U or 38U integrated, air conditioned, sealed, computer cabinet that includes casters, leveling feet, power strips and integrated emergency cooling.

Included as optional equipment is UPS battery backup emergency power protections with on-line double conversion UPS systems.

Cabinets are designed to operate on 120VAC or 208VAC (240VAC) single phase electrical input and can be deployed as a single enclosure or clustered in a lineup.

Cabinets are configurable, depending on your electrical loads, and are designed for a variety of manufacturers equipment. Ideal for remote server locations, dusty environments, shop floor installations or simply to provide needed space without expanding your existing server room.

The Rittal air conditioned server enclosure system provides for an economical equipment protection solution designed for many years of service life. Rittal pre-configured models:

**Rittal Air Conditioned Enclosures For Networks Servers, Switches**

**Rittal Top Mount Air Conditioner**

Model	Cooling Capacity	Cooling BTU's	Equipment Cooling	Electrical Input	Connection
SB-RITTAL-TS8-AC-7200	0.6 Ton	7,200 Btu	2100 Watts	120 or 208VAC	Hrdwire or Plug
SB-RITTAL-TS8-AC-9300	0.7 Ton	9,000 Btu	2700 Watts	208 or 208VAC	Hrdwire or Plug
SB-RITTAL-TS8-AC-18000	1.5 Ton	18,000 Btu	5400 Watt	(2) 120or 208VAC	Hrdwire or Plug

**Rittal Air Conditioned Server Enclosure Features**

Air Conditioned, Temperature Controlled Cabinet  
Configurable Cooling Capacity from .6 to 1.5 Tons  
Operate on 120VAC or 208VAC (240VAC)  
Equipment Security – Lockable Front and Rear Doors  
Protection from Overhead Sprinklers  
Wide Area Network Communications

Leveling Feet and Casters  
Gasketed Sealed Doors  
Power Strips  
Backup Cooling System  
Adjustable Mounting Rails  
19” or 23” Configurable Equipment Racks
